

TIMBER BIO

Lubricant for Power Chain Saws

100% synthetic, 98.6% biodegradable

Manual or Automatic Lubrication

TYPE OF USE

Specially formulated for Power Chain Saws Lubrication
All types of power chain saws with manual or automatic lubrication systems.

PERFORMANCE

This environment friendly lubricant is 100% synthetic and 98.6% biodegradable in 21 days.
The synthetic base stock avoid deposit build ups on guide, chain and protection case.
High resistance at high temperature. Anti-oxidation performance.
Prevents guide and chain wear.
Appropriate viscosity for an efficient lubrication while avoiding risks of oil splashes.
Thin enough but highly adhesive.
Anti-corrosion and anti-wear.

ADVANTAGES

Reduction of oil consumption.
Reduction of heating.
Better protection for a longer chain life time.

PROPERTIES

Density at 15°C (59°F)	ASTM D 1298	0.929
Viscosity at 40°C (104°F)	ASTM D 445	77 mm ² /s
Viscosity at 40°C (104°F)	ASTM D 445	13.8 mm ² /s
Flash Point	ASTM D 92	310°C / 590°F
