

MOTUL TECH GREASE 300

High Performance Multipurpose Grease

**Semi-synthetic – Complex Lithium
NLGI 2 – Extreme-Pressure**

TYPE OF USE

Very high performance multipurpose grease

Greasing of roller bearings, articulations, bearings, hubs, cardan joints, ball joint, cables...
Suitable with all types of machinery working under normal or severe conditions.

Car, Motorbike, Marine, Transport, Civil engineering machinery, industry and farm machines...
Particularly efficient in most extreme conditions : high temperature, heavy load, humidity, vibrations and/or long duration of use.

Temperatures for use : from - 30°C / - 22°F to + 150°C / + 302°F in continuous and up to +200°C / +392°F in peak.

PERFORMANCE

Multipurpose grease par excellence, formulated from mineral and synthetic base oil stocks and from a complex lithium soap, with extreme-pressure, anti-wear, anti-oxidation and anti-corrosion additivation.

ADVANTAGES OF MOTUL TECH GREASE 300:

- Excellent performances at high temperature: the drop point higher than 260°C / 500°F allows a continuous use until 150°C / 305°F and punctually at 220°C / 392°F, far higher than classic greases.
- Longer life duration compared to a classic lithium grease.
- Excellent cold properties : pumpability at -30°C / -22°F
- Resistance to heavy loads thanks to its complete high performance extreme-pressure and anti-wear additivation.
- Very high resistance to water, corrosion and rust.
- Reinforced adherence

Security and reduction of maintenance costs.

Designation : DIN 51 502 : KP 2 P-30

PROPERTIES

Colour	Visual	Green
Consistency grade	DIN 51 818	NLGI 2
Soap		Complex Lithium
Penetrability - 60 cycles	ASTM D217	265 / 295 x10 ⁻¹ mm
Drop point	ASTM D 2265	> 260°C / > 500°F

Anti-corrosion EMCOR IP 2200 / 0

TIMKEN Test - load	ASTM D 2509	50 lb
FAG FE-9 Test	DIN 51 821	F50>100h at 150°C
