

# TOP GEL

**Micro balls soap  
for hands cleaning**

## **TYPE OF USE**

Cleaning of dirty hands, recommended for mechanics, garages, workshops, farms, transport and construction engineering...

## **CHARACTERISTICS**

Complex mixture of wet substances, detergent agents, solvent products and polypropylene micro balls.

Contains an antiseptic and bacteriostatic preservative agent which guarantees a perfect resistance to micro-organisms.

Meets NFT-102 standard.

Formula based on almond extracts to protect hands. Leave hands soft and slightly perfumed.

## **RECOMMENDATIONS**

Put just a nut of MOTUL TOP GEL on dry hands,  
Rub without water and rinse with plenty of water.

## **PROPERTIES**

Coloured in pink
