

MOTUL TOP GEL

Detergent paste for hands cleaning

TYPE OF USE

MOTUL TOP GEL is a detergent paste for hands cleaning.

Recommended in garages, mechanics' workshops, farms, transport and civil engineering firms...

CHARACTERISTICS

Complex mixture of wet substances, biodegradable detergent agents, solvent products and polypropylene balls.

Contains an antiseptic and bacteriostatic preservative agent which guarantees a perfect resistance to micro-organisms.

In accordance with health control regulations (leaflet n° 1544 from the "*Journal Officiel*" book).

In accordance with NFT-102 standard.

Especially efficient against oil sludges and ink stains.

Excellent cleaning properties.

Soft for the hands and slightly perfumed.

RECOMMENDATIONS

Put just a little bit of MOTUL TOP GEL paste on hands without water, rub and rinse with plenty of water.
