LUBRICATION

Engine

Use oil meeting specification RES 22.OL.PD2 or the requirements of CCMC – PD2 and having a viscosity band recommended for the temperature of your locality. Where oils to these RES and European Specifications are not available, well known brands of oil meeting API SG or SG/CD quality should be used.

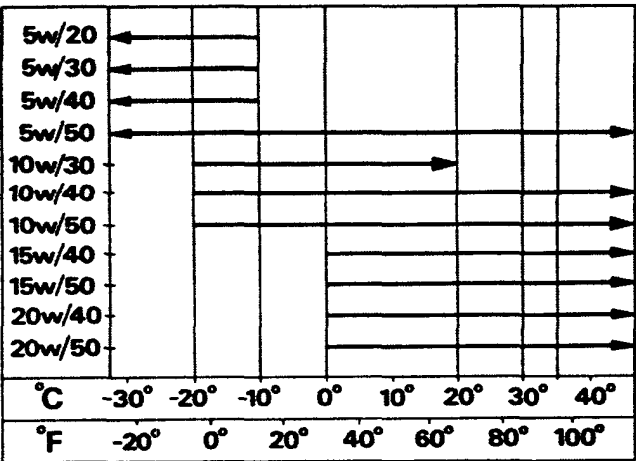

Gearbox

Use oil meeting specification RES 22.OL.G4 or the requirements of CCMC – G4. where oils to these RES and European Specifications are not available, well known brands of oil meeting API SG or SG/CD quality should be used.

Power Steering

Use Dexron IID or equivalent
