

Manual Door Mirror

Removal

1. Remove the knob cap and screw, then remove the control knob.
2. Pry out the cover panel with a flat tip screwdriver, then remove the cover panel.
3. Remove the mirror mounting screws while holding the mirror.

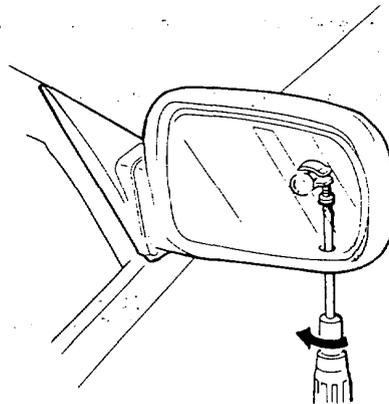

4. Install the door mirror in the reverse order of removal.
5. With the door and door glass closed fully, check for water and air leaks.

NOTE: Do not use high pressure water.

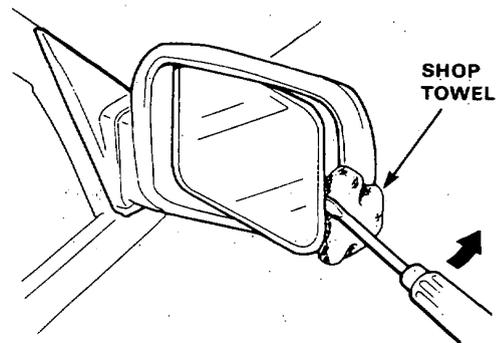

Mirror Glass Replacement

1. Insert a screwdriver in the mirror through the service hole, and loosen the glass retaining screw.

2. Carefully pry out the mirror with a flat tip screwdriver as shown.

CAUTION: To prevent damage to the mirror, wrap the end of the screwdriver with a shop towel.

3. Install the mirror in the reverse order of removal, and also apply grease to the location shown.
