

**O.E.PRO MEANS BUSINESS!**

# Genuine SUBARU Replacement Mufflers

**...offer perfect fit and function.**

Unlike typical generic mufflers, only Genuine Subaru Replacement and Performance Muffler Assemblies offer these unique advantages...

## **Welded, one-piece assembly**

A Genuine Subaru Replacement Muffler Assembly is a complete, all-welded, one-piece unit that ensures easy and precise installation and fit—the same exact fit as the assembly supplied on the vehicle as original equipment. They eliminate the need to deal with the all-too-common combination of leak-prone pipe adapters; cumbersome, multiple clamps; and adaptable hangers that never fit quite right.

## **Fully aluminized steel construction**

A Genuine Subaru Replacement Muffler Assembly is a heavy-duty, integrated unit of thicker materials than typical aftermarket mufflers. Special corrosion-resistant

aluminized steel construction allows for long life. Sound absorbing materials help subdue sound without hampering performance – unlike typical replacement mufflers with few baffles to suppress exhaust noise.

## **Specifically designed for your customers' cars**

A Genuine Subaru Replacement Muffler Assembly is designed for each Subaru vehicle application—not “cross-fitted” to multiple makes and rigged with adapters. All mounting parts precisely match the original Subaru assembly for easy, safe, no-rattle replacement.

## **Competitively priced and backed by warranty**

Each Subaru Muffler offers the quality of original equipment at a price that matches or beats aftermarket mufflers. And each is backed by the Genuine Subaru Parts Limited Warranty that covers the entire, integrated unit—not just the muffler itself—including welded-on pipes, clamps, and hardware. Contact your dealer for complete warranty details.

## **Thank you for your interest in Genuine Subaru Parts.**

The Subaru O.E.PRO Parts Program offers the largest inventory of these OE-quality Subaru parts available anywhere. Pricing information for the following products is available through your authorized Subaru dealer. Please call for complete details.

**➤ To find a replacement muffler application, simply click on either of the categories shown to the right. You may also scroll through the application charts to find a specific part.**

## DISCLAIMER OF WARRANTIES

This Subaru performance part is sold “as is” and without any warranty of any kind. All implied warranties, including all warranties of merchantability or fitness for a particular purpose, are excluded. Purchaser acknowledges that no representations have been made regarding this part, including but not limited to any representations as to its quality or performance, and purchaser shall be responsible for and bear all costs of repair or replacement due to any defect in or failure of this part.

Purchaser acknowledges that vehicles equipped with this part must not be operated on public highways since such operation may be unlawful. This performance part is intended solely for use on vehicles participating in sanctioned off-highway competitive events. Purchaser acknowledges that Subaru vehicle and parts and accessories warranties do not cover damage to any component that results from operating the vehicle in any competition or racing event. Purchaser also acknowledges that there is no warranty coverage for any part or accessory that fails as a result of the installation of this Subaru performance part. Purchaser accepts all responsibility for all vehicle modifications and all potential risks.

## IMPORTANT NOTICE

This Subaru performance part has been designed and is intended for off-highway application only. Installation of this part on a vehicle intended for use on public roads may violate state or federal laws and regulations including those relating to emissions requirements and motor vehicle safety standards. Federal and many state laws prohibit the removal, modification or rendering inoperative of any part or vehicle system affecting emissions or safety. Violations may result in a fine of up to \$10,000 per vehicle. In addition, installation of this part may adversely affect the warranty coverage on your vehicle.
