| 23 | Steering system (Power steering) | | | I | | I | | I | | I | | I | | I | | I | | I | |
| 24 | Supplement restraint system | Inspect every 10 years. | | | | | | | | | | | | | | | | | |

Symbols used:

R: Replace

I: Inspection

(R) or (I): Recommended service for safe vehicle operation.

NÓTE:

- (1) Periodic inspection and replacement of the camshaft drive chains on the 3.0 liter models are not required.
- (2) This inspection is not required to maintain emission warranty eligibility and it does not affect the manufacturer's obligations under EPA's in-use compliance program.
- (3) When the vehicle is used in extremely dusty conditions, the air cleaner element should be replaced more often.
- (4) ATF filter is maintenance free part. ATF filter needs replacement, when it has physically damaged or ATF leaked.
- (5) A tire should be replaced when the tread wear indicator appears as a solid band across the tread. The indicators appear when the remaining tread has been worn to 1.6 mm (0.063 in) or less.

B: MAINTENANCE SCHEDULE 2 SA07682G25

| Item | Every | Repeat short distance drive | Repeat rough/muddy road drive | Extremely cold weather area | Salt or other corrosive used or coastal area | High humidity or mountain area | Repeat tow- ing trailer |
