- The driver's door will be unlocked.

  (To unlock all doors, briefly press the button a second time within 5 seconds.)
- 3 Press the button to open the rear gate.
- The horn will sound and the hazard warning flashes will flash.

### **Keyless access function (if equipped)**

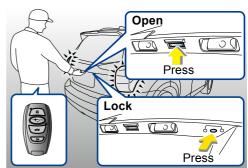

All doors and the rear gate will be locked/unlocked by the following procedures carrying the access key on your person. (The driver should always carry the access key.)

### Side door (front door handles only):

\*Grip the driver's door handle to unlock the driver's door. Grip the front passenger's door handle to unlock all doors and the rear gate.

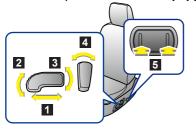

### Rear gate:

### **Adjust each component**

#### **Front seat**

#### Power seat (driver's seat - if equipped):

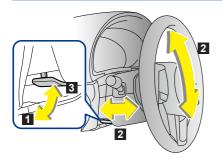

- 1 Forward and backward adjustment
- 2 Seat cushion angle adjustment
- 3 Seat height adjustment
- 4 Seatback reclining adjustment
- 5 Lumbar support control

#### Manual seat (if equipped):

- 1 Forward and backward adjustment
- 2 Seat height adjustment (driver's seat only)
- 3 Seatback reclining adjustment

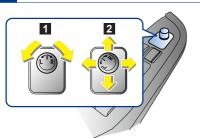

### Tilt/telescopic steering wheel

- 1 Pull the tilt/telescopic lock lever down.
- 2 Move the steering wheel to the desired level.
- Pull the lever up to lock the steering wheel in place.

Make sure that the steering wheel is securely locked by moving it up and down, and forward and backward.

### Remote control mirror switch

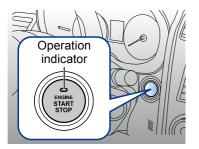

Ignition switch must be in **ACC** or **ON** position.

- 1 Select side to adjust.
- 2 To adjust the mirror, move the switch in the direction of your desired position.

### Start/Stop engine

### Push-button ignition switch (if equipped)

#### To start engine:

STEP1: Carry the access key, and sit in the driver's seat.

STEP2: Apply the parking brake.

**STEP3:** Shift the select lever in the **P** position.

**STEP4:** Depress the brake pedal until the indicator on the push-button ignition switch turns green.

**STEP5:** While depressing the brake pedal, press the push-button ignition switch.

#### To stop engine:

**STEP1:** Stop the vehicle completely.

**STEP2:** Move the select lever to the **P** position.

**STEP3:** Apply the parking brake.

**STEP4:** Press the push-button ignition switch.

### Change of the power supply (Without starting engine)

Every time the button is pressed without depressing the brake pedal, the power is switched in the sequence of **OFF** $\rightarrow$ **ACC** $\rightarrow$ **ON** $\rightarrow$ **OFF**.

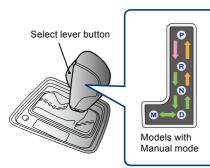

### Ignition switch (if equipped)

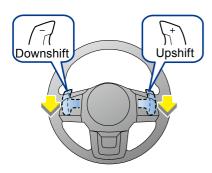

The key can be turned from **ACC** to **LOCK** only when the select lever is in the **P** position and the key is pushed in while turning it.

### **Operate Select lever/Shift lever**

#### Continuously variable transmission (if equipped)

2 To raise:

Slide the anchor up.

### **FUNCTION FOR MORE COMFORTABLE DRIVE**

### A Vehicle Dynamics Control OFF switch

models with power rear gate

models without power rear gate

#### Indicator lights on the combination meter

Vehicle Dynamics Control mode

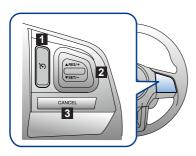

Vehicle Dynamics Control OFF mode

Press the switch to deactivate the Vehicle Dynamics Control system. It may be useful to briefly deactivate the Vehicle Dynamics Control system to facilitate the following operations.

- a standing start on a steeply sloping road with a snowy, gravel-covered, or otherwise slippery surface
- extrication of the vehicle when its wheels are stuck in mud or deep snow Do not deactivate the system except when absolutely necessary.

### B Cruise control buttons (if equipped)

Cruise control enables you to maintain a constant vehicle speed without holding your foot on the accelerator pedal and it is operative when the vehicle speed is 40 km/h (25 mph) or more.

- 1 Cruise control main button: To activate and deactivate
- 2 RES/SET switch:

▲ RES/+ side: To increase the speed/To resume ▼ SET/- side: To set speed/To decrease the speed

3 CANCEL button: To temporarily cancel

### **C** SI-DRIVE switches

This system consists of two or three modes: Intelligent (I), Sport (S), and Sport Sharp (S#).

By operating the SI-DRIVE switches, the character of the power unit changes.

Intelligent (I) mode: Perform either of the following procedures.

- Press the S/I switch when the Sport (S) mode is selected.
- Press the \$#/I switch when the Sport Sharp (S#) mode is selected.

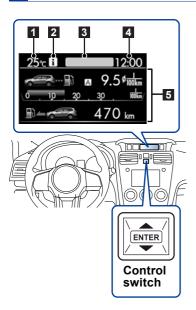

#### Sport (S) mode:

Press the S/I switch when any mode other than Sport (S) mode is selected.

#### Sport Sharp (S#) mode:

Press the S#/I switch when any mode other than Sport Sharp (S#) mode is selected.

### D Multi function display

- 1 Outside temperature indicator
- 2 Information reminder
- 3 Top display
- 4 Clock
- 5 Driving information display:

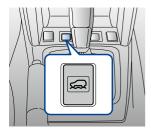

By operating ▲ or ▼ of the control switch, the screens and selection items can be switched.

Control switch: By operating ▲ or ▼ of the control switch, the screens and selection items can be switched. When the ENTER switch is pulled toward you, the item can be selected and set.

### E X mode switch

X mode assists driving more comfortably even in slippery road conditions including uphill and downhill.

To activate:
