

## Cigarette lighter (if quipped)

### **⚠ WARNING**

To avoid being burned, never grasp the lighter by the end with the heating element. Doing so could result in injury and could also damage the heating element.

### **⚠ CAUTION**

- Do not hold the lighter pushed in, because it will overheat.
- If the lighter is replaced, it is best to use only a genuine SUBARU part. The use of parts that are not SUBARU-made may result in a short circuit and overheating.
- Avoid the use of "plug-in" type accessories (spot-lights, shavers, etc.). Such accessories may damage the socket.

OM-H2439

The cigarette lighter operates only when the ignition switch is in the "ON" and "ACC" position.

To use the cigarette lighter, push in the knob and wait a few moments. It will automatically spring up when ready for use.
