**CA/50 STATE CERTIFIED EMISSION
CONTROL UNDERHOOD LABEL
ORDERING**

Models:

All Models

PRODUCT GENERAL INFORMATION
PG006-00

Introduction It is no longer necessary to fax the CA/50 State Emission Label Order Form to TMS. California (CA) and 50 State Certified underhood emission control labels (emission labels) may now be obtained through your dealership Parts Department utilizing standard replacement parts ordering procedures via the TDN. Follow the guidelines outlined in this TSB to ensure proper label application.

**Applicable
Vehicles**

- **All model year Toyota Vehicles.**
We have included tables reflecting 1997 – 2000 MY CA and 50 State Emission Label part number information for your convenience. Please continue to consult the Electronic Parts Catalog (EPC) or the parts microfiche for information regarding other model years as well as Federal Emission label part numbers.

NOTE:

Although the California Smog Impact Fee has been discontinued, dealers are still required by regulation to verify the correct emission label is installed on the correct vehicle.

REGULATIONS:

The United States Clean Air Act, Title II, Sections 202, 203, 205, and 207 mandates that the emission control label must correctly match the emissions equipment on the vehicle. Any person violating this requirement is subject to applicable State penalties and a Federal civil penalty of no more than \$25,000 for each instance.

Personnel at franchised dealerships are authorized to affix such labels to vehicles and are, therefore, subject to this regulation and the attendant penalties.

- Do not sell the labels over the counter. Always install the label on the vehicle.
- Never install a California and/or 50 State Label on a vehicle that is not a California/50 State Emission Certified Vehicle.
- Do not install Federal Emission labels on vehicles that are not Federal Emissions Certified.

**Label
Ordering
Procedure**

To ensure that the emission control labels are affixed to the correct vehicle, it is necessary to follow these procedures:

1. Record the Vehicle Identification Number (VIN) from the vehicle requiring a replacement label.
2. A dealership associate (must be assigned by Parts Manager), with authorized TDN access, must confirm the emissions equipment of the vehicle by referring to the following accessory codes:

- **CA – California Certified**
- **FE – 50 State Certified**
- **RE – Federal Certified**
- **CN – California and New York Certified**

3. Once the emissions equipment information is verified, obtain the part number information by referring to the attached table for 1998 – 2000 MY vehicles or consulting the EPC/microfiche for other Toyota vehicles, including Federal Specification Vehicles.
4. Order the label through your Parts Department, using normal parts ordering procedures via the TDN.
5. When the part arrives, verify that the emission label matches the emissions equipment on the vehicle. This will ensure the correct label is affixed to the vehicle.
