

Protec Tondeuse

Mowed turf anti adherent

Spray

TYPE OF USE

All mowers, electrical or thermal engine, hand pushed or powered, undergrowth cutter, grass cutter...
Avoid mowed turf to stick to the sword case or to the exit tunnel.

PERFORMANCE

MOTUL Protec Tondeuse leaves an anti-adherent film that make the mowing easier and avoid mowed turf jamming in the sword case and in the exit tunnel. The sword turns free.
MOTUL Protec Tondeuse protects from corrosion.

RECOMMENDATIONS

Shake before use.

Unplug the electrical wire or the spark plug wire before proceeding.

On the clean and dry mower, spray on the all surface of the sword case, on the sword and on the frame.

Let stand for a while before mowing.

SECURITY

Refer to the MSDS sheet and the information mentioned on the spray.
