

THEFT DETERRENT SYSTEM

■ DESCRIPTION

The theft deterrent system can sound an alarm when somebody attempts to forcibly enter the vehicle, open the engine hood or trunk lid, or unlock any door or trunk lid without the key, when the battery terminals are removed and reconnected.

- The system consists of door lock control system parts, smart entry & start system parts, self-power siren and security indicator light.
- The Main Body ECU RH controls this system.
- The warning methods and timing of the system are listed below.

Warning Method	Interior Light	Illuminates
	Hazard Light	Flashing
	Vehicle Horn	Sound (approx. 0.4 second cycles)
	Self-Power Siren	Sounds a warning at the cycle of the self-power siren it self
	Door Lock Motor	Locking
Warning Time		30 seconds
