

■ WIPER ARM & BLADE

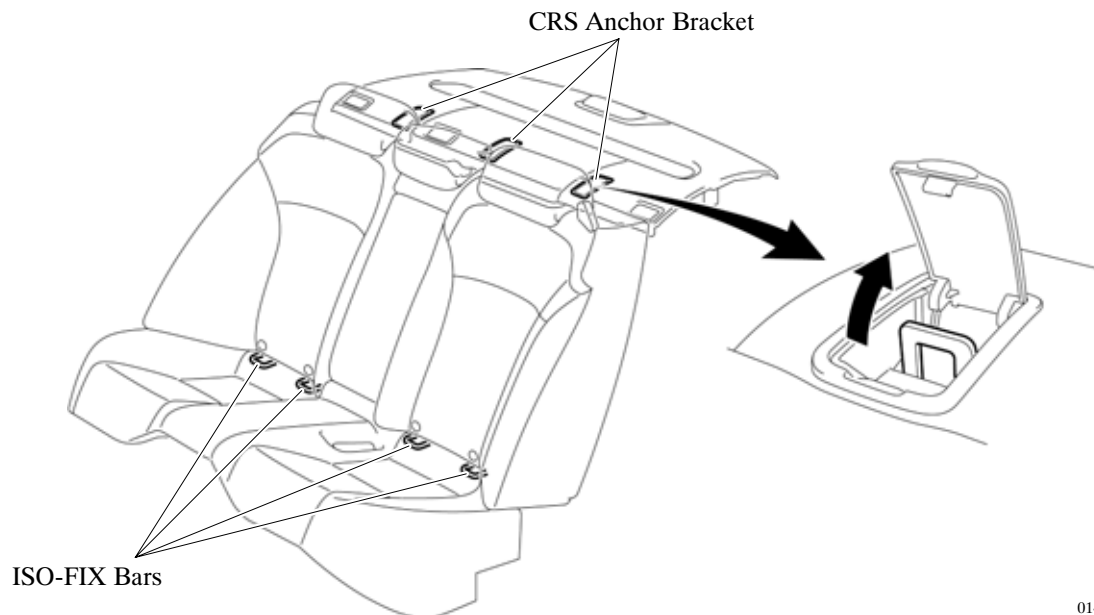

The unified construction of the wiper blade and arm is used. A fin-shaped resin cover is adopted for the entire wiper blade. This ensures the effectiveness of the wipers even when traveling at high speeds

0140BO14C

■ CHILD RESTRAINT SYSTEM

ISO-FIX bar for securing child seats are provided behind the seat cushion of the rear seat.
Three CRS anchor brackets for securing a child seat are provided above the package tray trim.
