Item	Outline	Destination	
		Europe	Australia
System Diagram	A microphone and steering pad switch RH for the voice recognition function are added.	○	—
	The steering pad switch RH is added.	—	○
Screen Display	Along with the functions that are added or changed, the screen design is changed.	○	○
LEXUS Navigation System	A voice recognition function is added.	○	—
	<ul style="list-style-type: none"> ● In the navigation ECU, the process for calculating the information that is input from the GPS (Global Positioning System) satellites is revised in order to improve the accuracy of the present location. ● The voice guidance volume can now be adjusted at the steering pad switch (Audio Volume). ● Numerous additions and changes are made to the display. For details, see page 81. 	○	○
Cellular Phone	A function that supports the Bluetooth (see page 43) type cellular phone is adopted. For details, see page 82 .	○	○
Diagnosis Screen Display	Diagnosis items are added for the cellular phone. For details, see page 83 .	○	○

4. Door Lock Control System (only for Europe Model)

Double locking system of the LHD models for Europe is changed from the optional equipment to the standard equipment.

5. Steering Pad Switch

The steering pad switch RH is added.

- The steering pad switch RH in Europe models has two switches. One is for voice recognition function of the LEXUS navigation system. The other is for the Bluetooth type cellular phone.
- The steering pad switch RH in other models has a switch. This is for voice recognition function of the LEXUS navigation system.

For Bluetooth type Cellular Phone
