

FRONT WIPER AND WASHER

C21
FRONT WIPER AND WASHER SW [COMB. SW]

FROM POWER SOURCE SYSTEM (SEE PAGE 62)

SYSTEM OUTLINE

When the ignition SW is turned on, the current from the **WIPER** fuse flows to the front wiper and washer SW **TERMINAL 17**, and front wiper motor **TERMINAL 2**.

1. LOW POSITION

When the wiper SW is turned to **LO** position, the current from the front wiper and washer SW **TERMINAL 17**, to **TERMINAL 7** to front wiper motor **TERMINAL 1** to **TERMINAL 5** to **GROUND**, and operates the front wiper motor at low speed.

2. HIGH POSITION

When the wiper SW is turned to **HI** position, the current from the front wiper and washer SW **TERMINAL 17**, to **TERMINAL 8** to front wiper motor **TERMINAL 4** to **TERMINAL 5** to **GROUND**, and operates the front wiper motor at high speed.

3. INT POSITION

When the wiper SW is turned to **INT** position, the relay operates and the current which is connected by the relay function flows from the front wiper and washer SW **TERMINAL 2** to **GROUND**, and operates the wipe.

The intermittent operation is controlled by the charge/discharge function of the condenser installed in the relay, and the intermittent time is controlled by a time control SW to change the charging time of the condenser.

4. WASHER CONTINUOUS OPERATION

When the washer SW is turned on, the current flows from the washer motor **TERMINAL 2**, to **TERMINAL 5** to front wiper and washer SW **TERMINAL 11** to **TERMINAL 2** to **GROUND**, operates the washer motor and the window washer emits a water spray. This causes the current to flow to the washer continuous operation circuit in front wiper and washer SW **TERMINAL 11** to **TERMINAL 7** to front wiper motor **TERMINAL 1** to **TERMINAL 5** to **GROUND**, and operates the wiper.

SERVICE HINTS

C21 FRONT WIPER AND WASHER SW [COMB. SW]

2-GROUND : Always continuity

17-GROUND : Approx. 12 volts with ignition SW at **ON** or **ST** position

7-GROUND : Approx. 12 volts with front wiper and washer SW at **LO** position

: Approx. 12 volts 1.6 to 10.7 seconds intermittently with the front wiper and washer SW at **INT** position

16-GROUND : Approx. 12 volts with ignition SW on unless the front wiper motor at **STOP** position

8-GROUND : Approx. 12 volts with front wiper and washer SW at **HI** position

F6 FRONT WIPER MOTOR

2-3 : Closed unless the wiper motor at **STOP** position
