

LEXUS NIGHT VIEW SYSTEM

BE2FY-01

PRECAUTION

When the Night View Projector is on, never look squarely at the light for a long time (more than 5 minutes).

HINT:

- The Night View Projector emits invisible light for human, therefore, the energy when Night View Projector comes on is almost equal to look squarely at the high beam from the front side.
- When Night View Projector is on, BEAM indicator on the night view switch and the out circumference of the Night View Projector comes on as ring.
