

PRE-CHECK

1. CHARACTERS OF WIRELESS DOOR LOCK

- (a) The operative distance may differ depending on the operator, the way of holding the transmitter and its position.
- (b) As the transmitter uses weak wave, its operating range becomes narrow when the weak wave is interrupted by noise.

2. WIRELESS DOOR LOCK BASIC FUNCTION

- (a) Stand on the driver's side. Stay 1 m away from the vehicle.
- (b) Turn the transmitter toward the vehicle and press any one of the transmission switched for 1 sec.
