

SRS AIRBAG

BO1NH-02

PRECAUTION

The LEXUS LX 470 is equipped with SRS (Supplemental Restraint System) such as the driver airbag and the front passenger airbag. (The side airbag and the curtain shield airbag are standard equipment.) Failure to carry out service operation in the correct sequence could cause the SRS to unexpectedly deploy during the servicing, possibly leading to a serious accident. Before servicing (including removal or installation of parts, inspection or replacement), be sure to read the precautionary notices in the RS section.
