

■ DAYTIME RUNNING LIGHT SYSTEM

- The daytime running light system is provided as standard equipment on all models.
- This system is designed to automatically activate the headlights (Low beam), parking lights, license plate lights and taillights during the daytime to keep the car highly visible to other vehicles.
This system is controlled by the Body ECU.
- This system is enabled when the conditions given below are met.
 - Ignition switch ON condition
 - Parking brake switch OFF condition
 - Light control switch OFF or AUTO condition (only when headlights-on control is not performed by the automatic light control system).
 - Hybrid system “READY” signal input (Hybrid system stand by condition)
