

INTERIOR

Instrument Panel

- The two-tone (metallic and black) center cluster adds to the luxurious look of the interior.
- Aluminum panels have been provided in the various areas of the instrument panel and center console to achieve a sporty design.
- A sporty and luxurious interior has been achieved through the use of a combination of a gate type shift lever and the expanded application of aluminum made panels.
- The airbag door for the front passenger has been made invisible to realize a streamlined look.
