

Lexus Parking Assist System

- The parking assist monitor of Lexus Parking Assist System is available as an option.
- This system has a television camera mounted on the back door to display the rearview of the vehicle on the display panel of the multi display. The display panel also shows a composite view consisting of the rearview and parking guideline to assist the driver in parking the vehicle by monitoring the rearview.
- With the ignition switch ON, if the driver shifts the shift lever to R position, the display panel of the multi display switches to operate this system.
