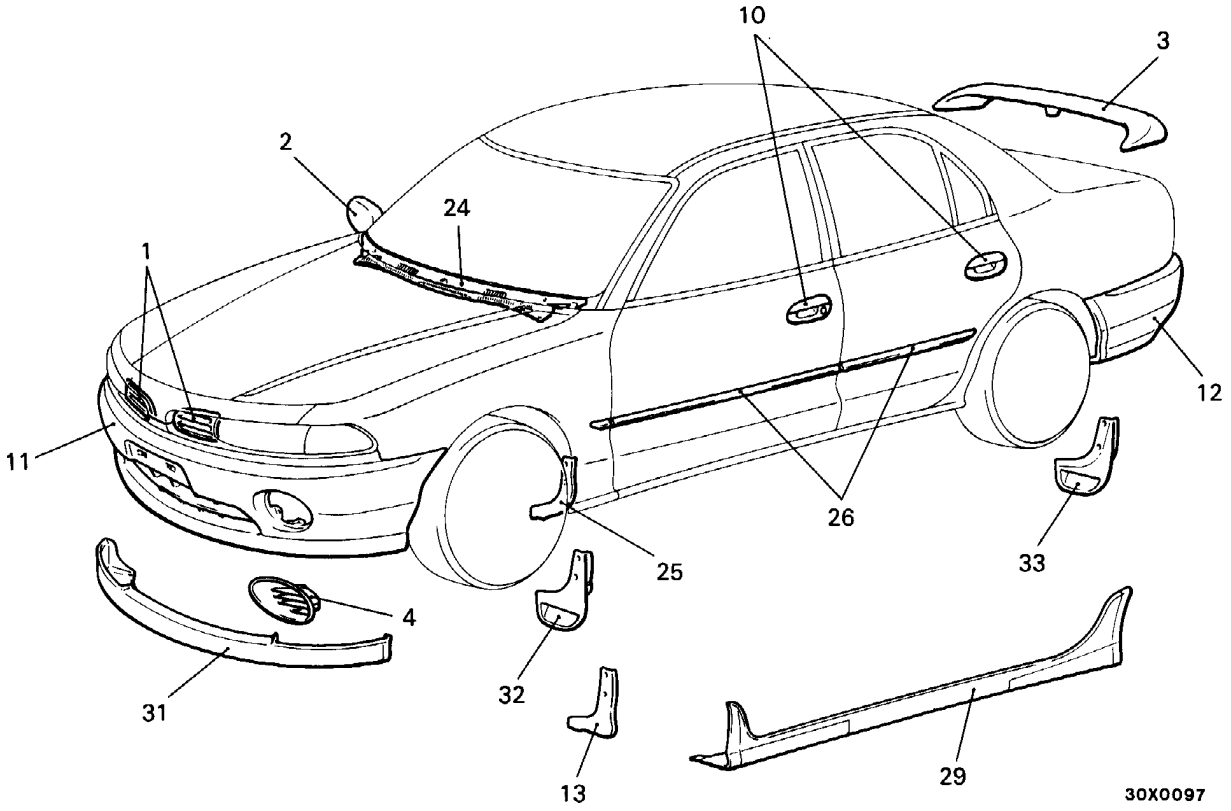
5 SYNTHETIC-RESIN PARTS

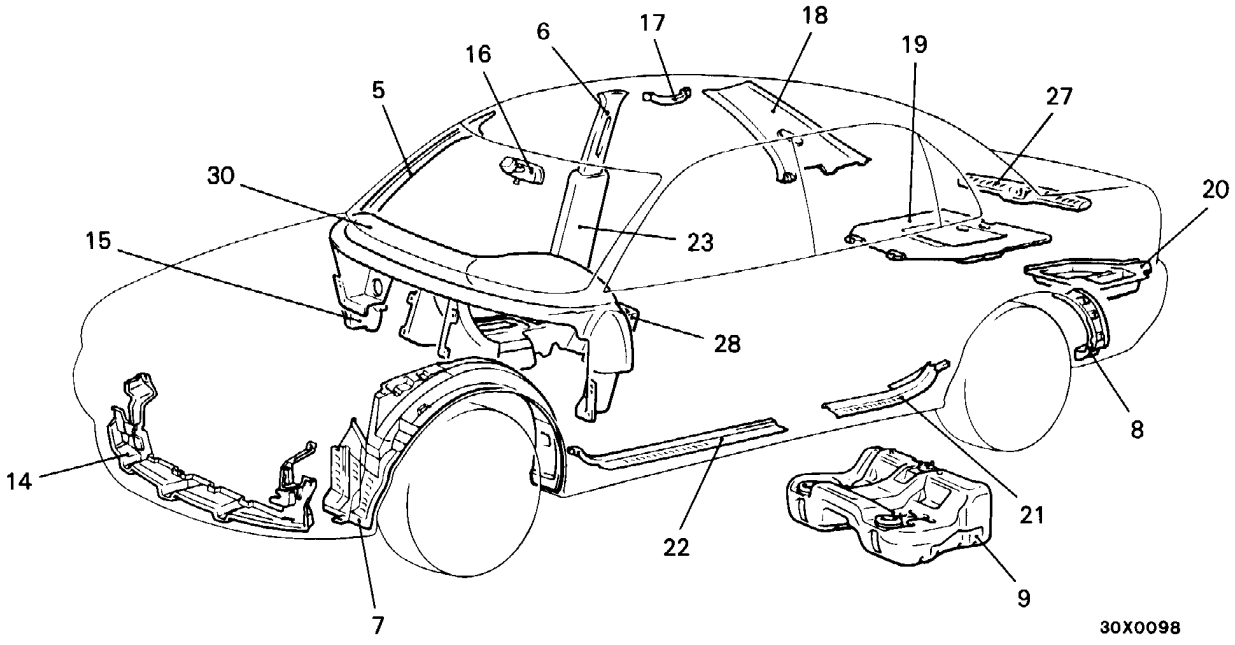
LOCATION OF SYNTHETIC-RESIN PARTS 5-2

LOCATION OF SYNTHETIC-RESIN PARTS

The location and material of each of the principal synthetic-resin parts are shown below:

[SEDAN]



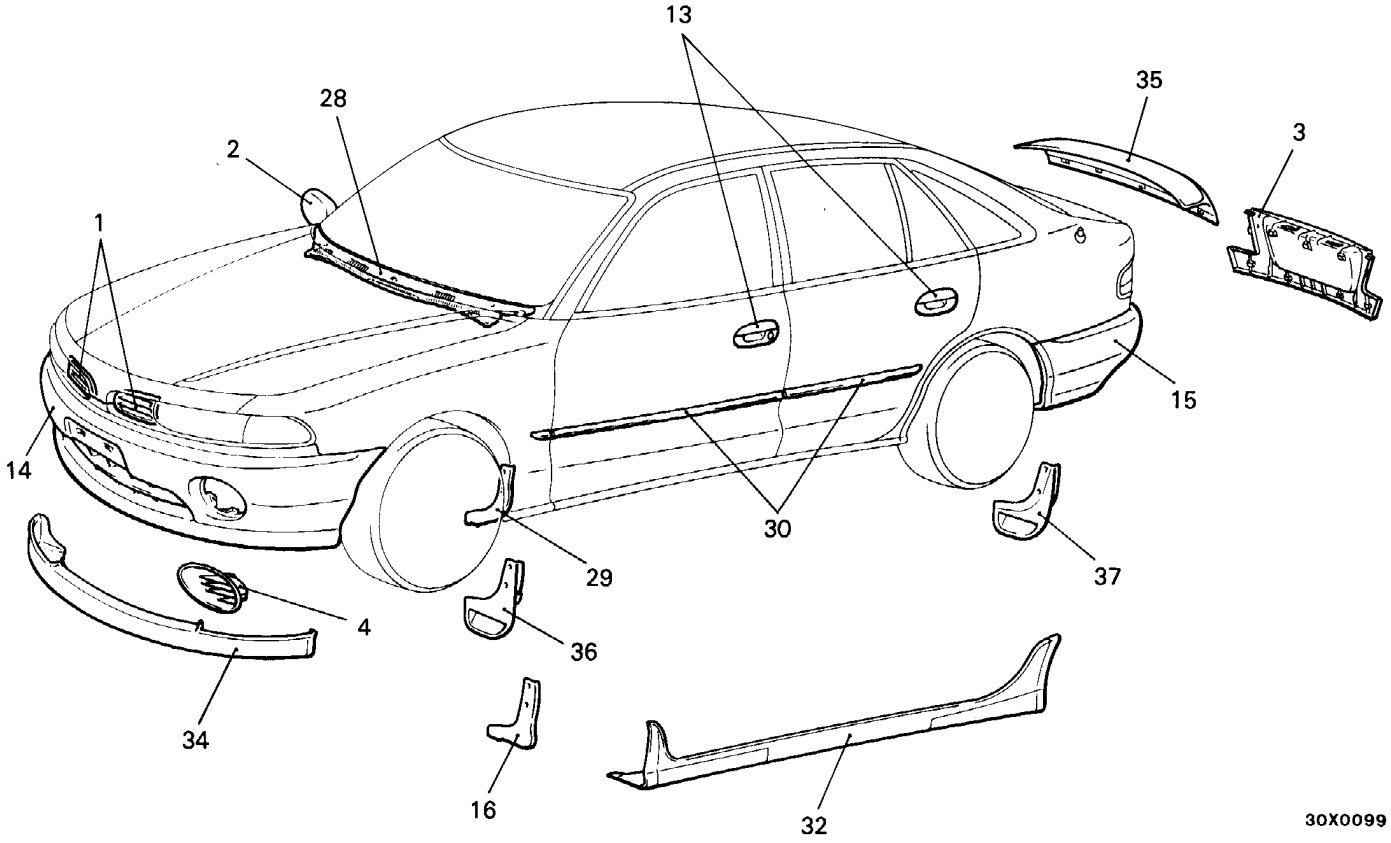


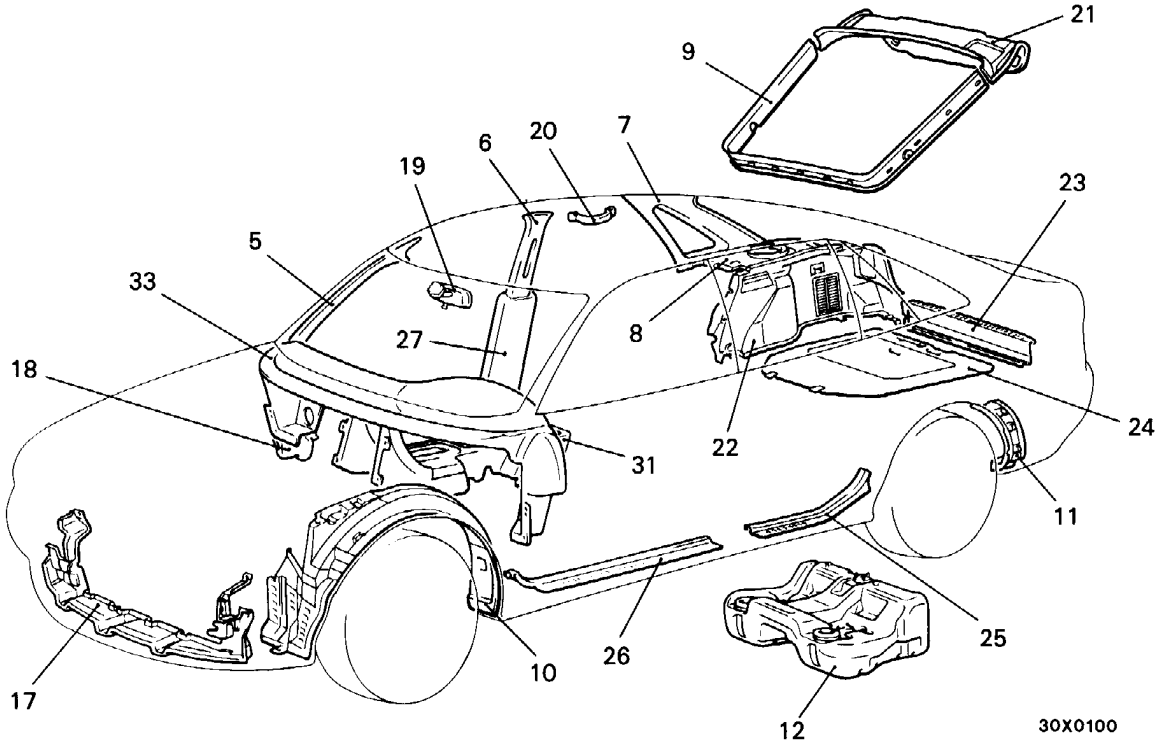
NOTES
Each synthetic-resin part is marked in an unobstrusive location to indicate the specific material.

No.	Part name	Name of resin	Abbreviation	Heat-withstand temp. [°C]
1 2 3 4 5 6	Radiator grille Door mirror Air spoiler, rear Air inlet garnish Front pillar trim Center pillar trim, upper	ABS resin	ABS	75 – 100
7 8	Splash shield, front Splash shield, rear	High-density polyethylene	HDPE	70 – 90
9	Fuel tank (4WD)	High-density polyethylene Modified polyethylene Polyamide 6	HDPE MODPE PA6	70 – 90
10	Door outside handle	Polyamide 6	PA6	160 – 180
11 12 13 14 15 16 17 18 19 20 21 22 23	Front bumper face Rear bumper face Side air dam, front Air guide panel Cowl side trim Room mirror Asist grip Rear pillar trim Trunk floor board Trunk side box (Vehicles without the rear wiper) Rear scuff plate Front scuff plate Center pillar trim, lower	Polypropylene	PP	60 – 100
24 25 26 27 28	Front deck garnish Stone guard Side protector moulding Rear end trim cover Floor console	Polypropylene form	PP-F	100 – 110
29	Side air dam, rear	Polyurethane	PUR	80
30	Instrument pad	Polyvinyl chloride/ Polyurethane	PVC/ PUR	65 – 80
31	Air dam panel	Glass fiber-reinforced RIM urethane	R-RIM	100 – 120
32	Front mud guard	Thermoplastic elastomer	TPE	80 – 100
33	Rear mud guard	Thermoplastic rubber	TPR	80

NOTES
(1) The indicated heat-resistance temperature for parts which are composed of two or more types of materials is the value for the material with the lowest heat-resistance temperature.
(2) The fuel tank is of a 5-layer construction and is made from three different kinds of resin.
(3) Materials before a slash (/) are outside materials, and those after the slash are inside materials.

[HATCHBACK]





NOTES
Each synthetic-resin part is marked in an unobstrusive location to indicate the specific material.

No.	Part name	Name of resin	Abbreviation	Heat-withstand temp. [°C]
1 2 3 4 5 6 7 8 9	Radiator grille Door mirror Tailgate garnish Air inlet garnish Front pillar trim Center pillar trim, upper Rear pillar trim Side shelf Tailgate trim, upper	ABS resin	ABS	75 – 100
10 11	Splash shield, front Splash shield, rear	High-density polyethylene	HDPE	70 – 90
12	Fuel tank (4WD)	High-density polyethylene Modified polyethylene Polyamide 6	HDPE MODPE PA6	70 – 90
13	Door outside handle	Polyamide 6	PA6	160 – 180
14 15 16 17 18 19 20 21 22 23 24 25 26 27	Front bumper face Rear bumper face Side air dam, front Air guide panel Cowl side trim Room mirror Assist grip Tailgate trim, lower Rear side trim Rear end trim Trunk floor board Rear scuff plate Front scuff plate Center pillar trim, lower	Polypropylene	PP	60 – 100
28 29 30 31	Front deck garnish Stone guard Side protector moulding Floor console	Polypropylene	PP-F	100 – 110
32	Side air dam, rear	Polyurethane	PUR	80
33	Instrument pad	Polyvinyl chloride/ Polyurethane	PVC/ PUR	65 – 80
34	Air dam panel	Glass fiber-reinforced RIM urethane	R-RIM	100 – 120
35	Air spoiler, rear	Glass fiber-reinforced plastic	SMC	200
36	Front mud guard	Thermoplastic elastomer	TPE	80 – 100
37	Rear mud guard	Thermoplastic rubber	TPR	80

NOTES
(1) The indicated heat-resistance temperature for parts which are composed of two or more types of materials is the value for the material with the lowest heat-resistance temperature.
(2) The fuel tank is of a 5-layer construction and is made from three different kinds of resin.
(3) Materials before a slash (/) are outside materials, and those after the slash are inside materials.
