

Wiring Diagram Components and Connections:

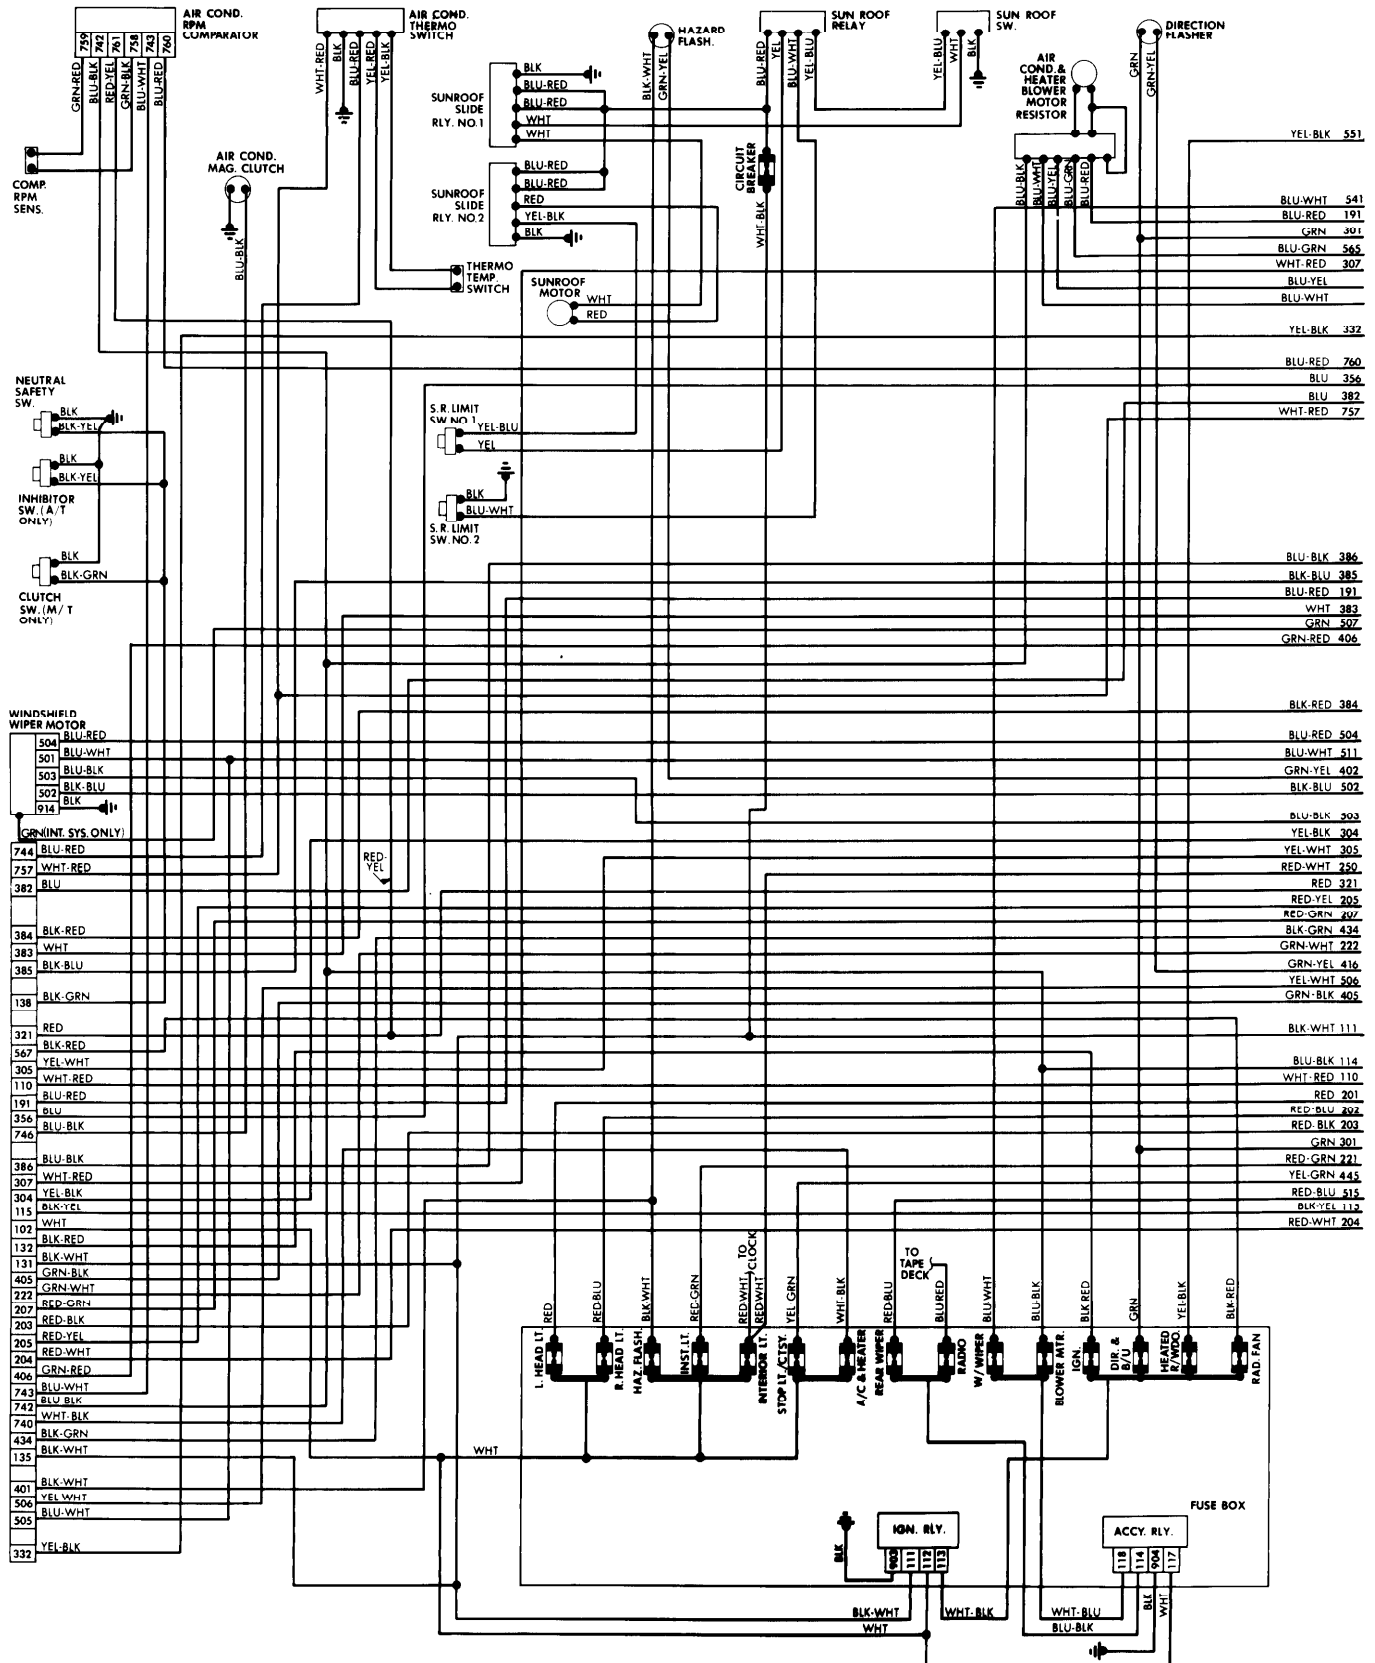

- BATTERY:** Connected to the starter and alternator via a GRN FUSIBLE LINK and WHT-RED wire.
- STARTER:** Connected to the battery and the carburetor.
- ALTERNATOR:** Connected to the battery and the carburetor.
- CARBURETOR:** Connected to the starter, alternator, and various sensors.
- DISTRIBUTOR:** Connected to the coil and the carburetor.
- COIL:** Connected to the distributor and the carburetor.
- CONDENSER:** Connected to the coil and the carburetor.
- COOLANT TEMP. SW.:** Connected to the carburetor and the alternator.
- OIL PRESS. SW.:** Connected to the carburetor and the alternator.
- CARB. HTR.:** Connected to the carburetor and the alternator.
- FAN TEMP. SW.:** Connected to the carburetor and the alternator.
- COOLING FAN MOTOR:** Connected to the carburetor and the alternator.
- HORN:** Connected to the carburetor and the alternator.
- HEADLIGHT:** Connected to the carburetor and the alternator.
- PARK LT.:** Connected to the carburetor and the alternator.
- DIR. LT.:** Connected to the carburetor and the alternator.
- FAN CONTROL RLY.:** Connected to the carburetor and the alternator.
- AIR COND. RLY.:** Connected to the carburetor and the alternator.
- CARB. HEATER RLY.:** Connected to the carburetor and the alternator.
- HORN RLY.:** Connected to the carburetor and the alternator.
- AUTO CHOKE RLY.:** Connected to the carburetor and the alternator.
- LOW WASHER FLUID SENS.:** Connected to the carburetor and the alternator.
- WINDSHIELD WASHER MOTOR:** Connected to the carburetor and the alternator.
