

11.Multi Display

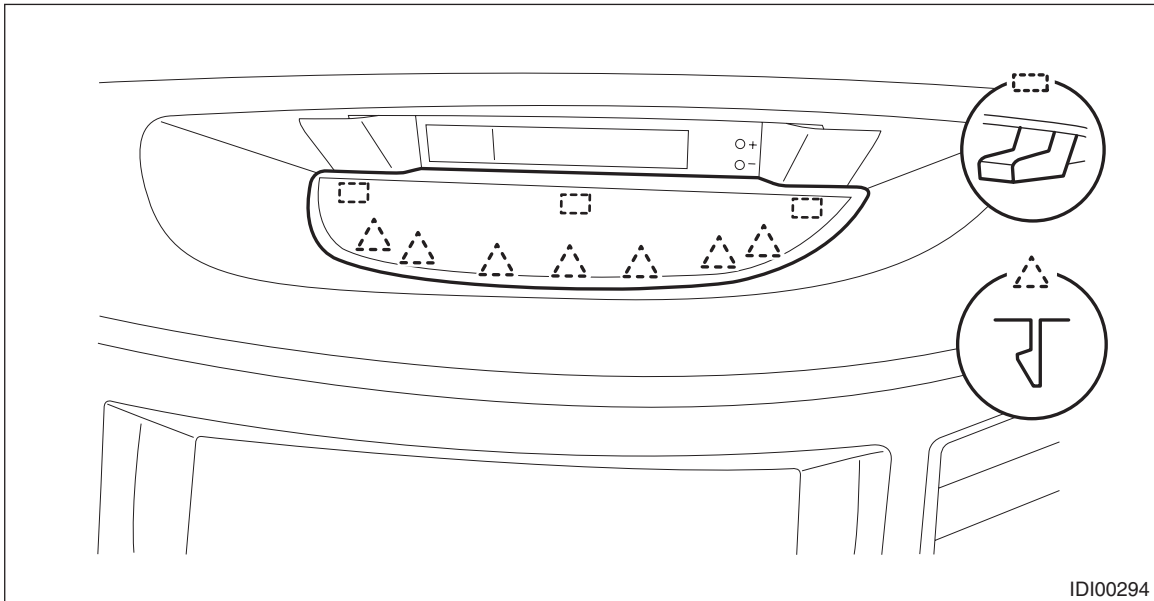

A: REMOVAL

1) Remove the center speaker cover.

NOTE:

If the cover is hard to remove, first remove the audio assembly or navigation assembly, and then push up the cover from the backside.

- (1) Push up the center speaker cover from the audio space.
- (2) Disconnect the claws and hooks and remove the center speaker cover.

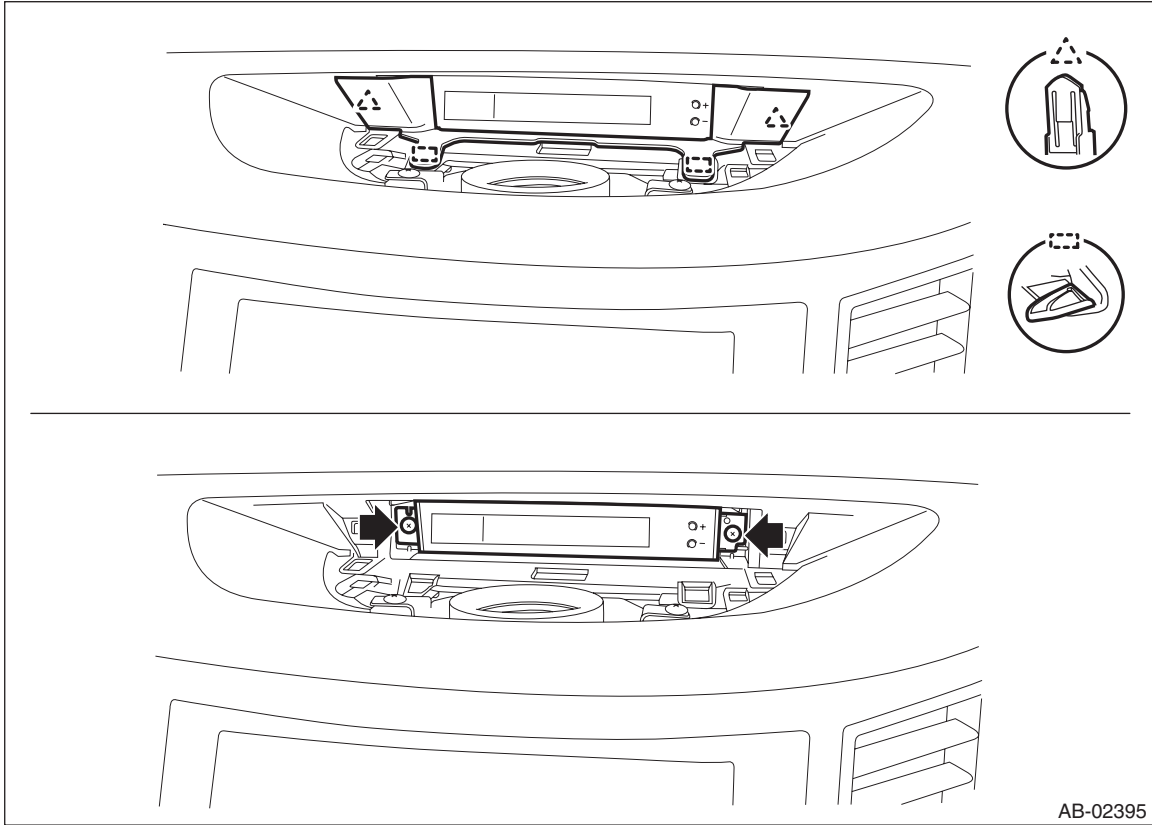

IDI00294

2) Remove the multi display.

CAUTION:

Be careful not to damage the multi display or instrument panel.

- (1) Release the clips and claws, detach the multi display panel LWR.
- (2) Remove the screws and pull out the multi display toward you to disconnect the connectors.

B: INSTALLATION

CAUTION:

- Make sure the electrical connector is connected securely.
- Make sure that the multi display operates normally.

Install each part in the reverse order of removal.
