# NEW FEATURES

## ■ EXTERIOR

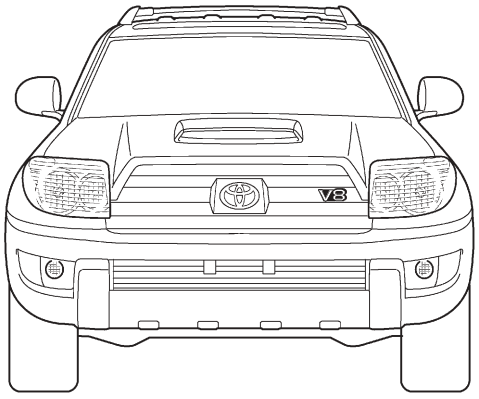

### 1. Front Design

- Projector-type low beam headlights are used for the four-beam type headlights, achieving a high-tech image.
- The extension section is smoke-plated on the sport package model on the SR5 grade, achieving a design that gives a sporty impression.
- The radiator grille and front bumper lines create a trapezoid-shaped image, achieving a design that emphasizes the size of the front mask.
- A plated radiator grille is newly provided as standard equipment on the SR5 grade.
- A radiator grille that matches the exterior panel color is provided as standard equipment on the Limited grade.
- A smoke-plated type radiator grille is used on the sport package model on the SR5 grade, achieving a design that gives a sporty impression.
