NEW FEATURES

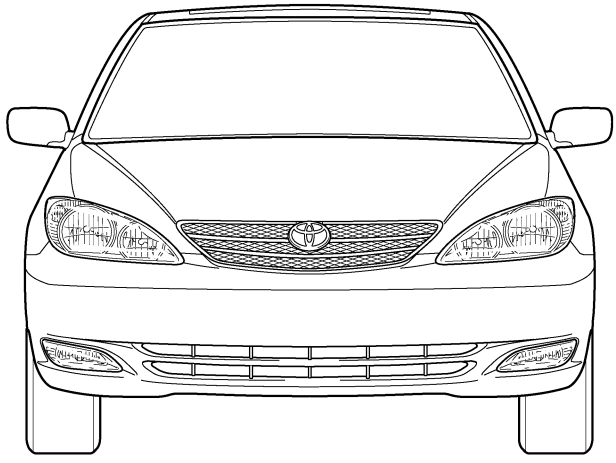

■ EXTERIOR

1. Front Design

- The front bumper has a three-dimensional shape that sweeps outward, thus giving a sporty and wide impression.
- On the normal grade model, the radiator grille has horizontal bars in the center and an upper grille frame to express a simple and luxurious look.
- On the sports package model, the radiator grille is constructed with a three-dimensional feel to emphasize the sportiness of the vehicle.
- The headlights consist of quad cylinders within spindle-type lamp graphics, to achieve a unique appearance. On the sports package model, the headlights are blacked out to give the vehicle a sporty impression.
- Along with the change in the design of the front bumper, the design of the fog lights has been changed.
