POWER DISTRIBUTOR

■ DESCRIPTION

The power distributor is built into the engine room relay block, and uses a small mechanical relay and semiconductor relay for a compact and lightweight design.

- The components of the power distributor are shown below.

Component	Relay
Mechanical Relay	● Horn Relay ● A/F Relay ● Security Horn Relay*1 ● EFI Relay ● Circuit Opening Relay ● Headlight Relay (RH)*2 ● Headlight Relay (LH)*2
Semiconductor Relay	● Headlight HI Beam Relay ● Headlight Relay (RH)*3 ● Headlight Relay (LH)*3

*1: Models with theft deterrent system
*2: Models with halogen type headlight
*3: Models with HID type headlight
