SEAT BELT REMINDER SYSTEM

■ DESCRIPTION

- If a seat belt is not fastened, this system flashes the seat belt reminder light or sounds the buzzer*1 in the combination meter as a reminder.
- When the ignition*2/engine*3 switch is turned ON, this system detects the condition of the seat belts based on the signals from the seat belt buckle switches (for the driver and front passenger*4) and the occupant detection sensor.

*1: Only for Australia and G.C.C. Countries models
*2: Models without smart entry and start system
*3: Models with smart entry and start system
*4: Except models for Australia
