ENHANCEMENT OF PRODUCT APPEAL

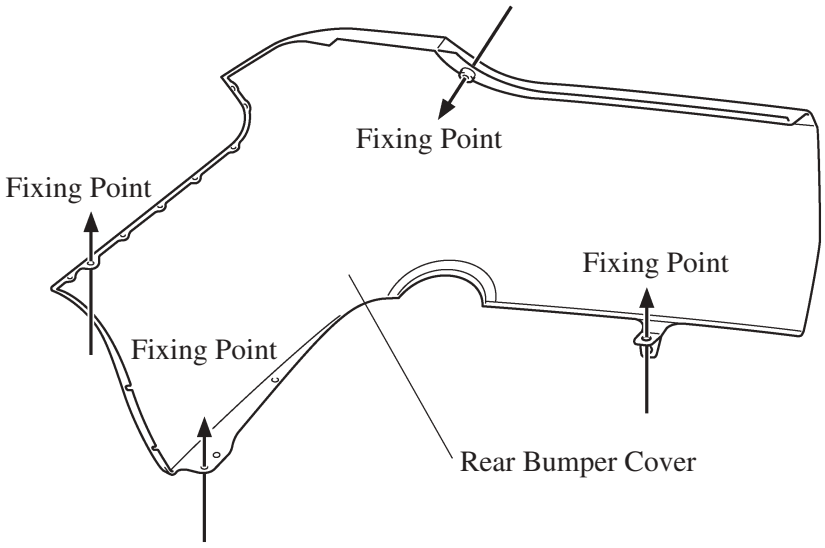

■ PARTS WITH LOW REPAIR COST

- The plating portion of the front grille of N, D, and G grade models for Australia and G.C.C. Countries, has been redesigned as an individual part. As a result, replacement of damaged parts only is possible, therefore reducing repair costs.

025BO23Y

- By reducing the number of fixing points, from 18 to 8, used for installing the rear bumper cover onto the vehicle body, repair time has been shortened.
