Rear View

- Except Australian and G.C.C. Countries 2AZ-FE Engine Models -

- The luggage door and rear bumper design is characterized by the unique U-shaped lines.
- With its impressive cylindrical designs, the rear combination light creates a sophisticated look. The taillight & stop light have been designed using LEDs (Light Emitting Diodes) to reduce power consumption.

*: Settings vary depending on destinations or grades.

- Australian and G.C.C. Countries 2AZ-FE Engine Models -

- Power and modernity have been produced by providing a solid-looking body shape from the luggage door to the center of the bumper and framing the luggage door with the left and right fenders.
- The edge of the rear combination light has been extended further into the side of the body, and the inner lens portion is ingot-effect white, expressing modernity and width.
