Console Box

- A storage pocket for items such as cellular phones and wallets has been provided beside the front console (1).
- An ashtray has been built into the front box (2).
- A storage box for small articles with an internal 12 V power supply terminal has been provided above the ashtray (3).
- Two drink cup holders, which can hold large sized drink cups and have a lid, have been provided on the center console, beside the shift lever on AT models (4). In addition, a storage box with a lid has been provided behind the shift lever (5). On MT models, drink cup holders with a lid have been provided behind the shift lever.
- The rear console box has a large capacity and a storage tray has been provided for keeping small articles (6). The console box lid can be used as an armrest (7); the one used on AT models slides 100 mm (3.94 in).

Console Box for AT Models
