Combination Meter

- A large 4-meter optitron display type combination meter or normal display type 4-meter combination meter is used. A multi-information display is available on some models with large 4-meter optitron display type combination meter. For details, see the equipment list in this section (see page MO-42).
- The instrument cluster illumination color control is provided, creating a feeling of luxury. The driver can select the scale illumination color among jade green, blue and amber by pressing the control knob on the combination meter. For details, see the equipment list in this section (see page MO-42).
- As described below, the contents of the cruise information vary depending on the destination and engine type.
  - Except Australian and G.C.C. Countries with 2AZ-FE engine models: outside temperature, driving range, average fuel consumption since refueling, time driven since engine start and average speed since engine start.
  - Only for Australian and G.C.C. Countries with 2AZ-FE engine models: outside temperature, driving range, average fuel consumption since refueling, distance driven since engine start and average speed since engine start.
