BODY

LIGHTWEIGHT AND HIGHLY RIGID BODY

■ DESCRIPTION

The body of the new CELICA has been made lightweight and highly rigid through the refinement of the shape and construction of each part, optimized allocation of reinforcements and members, and use of high strength sheet steel.

■ HIGH STRENGTH SHEET STEEL

High strength sheet steel is used for the hood, door panels and members.
We tried to lighten the weight by increasing the use of high strength sheet steel sections.

: High Strength Sheet Steel
