EXHAUST RETARDER SYSTEM

1. General

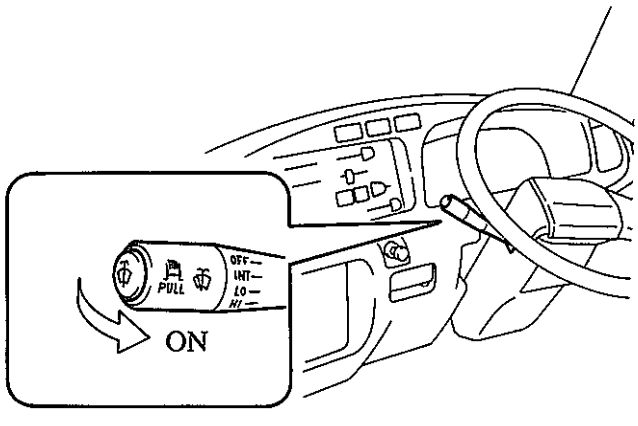

The new model has the following modifications in the exhaust retarder system:

- Main switch relocated.
- Main switch discontinued on 14B engine models for Hong Kong.
- Asbestos-free exhaust retarder gaskets used.

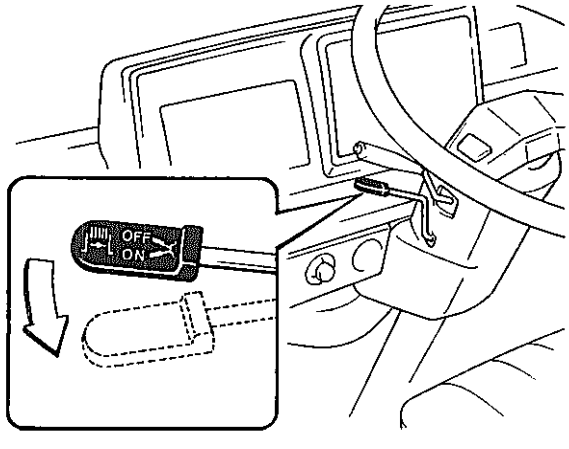

2. Construction of Main Components

Main Switch

The previous model used a dedicated main switch. However, the main switch of the new Coaster is integrated with the wiper and washer switch, and discontinued on 14B engine models for Hong Kong.

New (RHD Model)

Previous (RHD Model)

Exhaust Retarder

Asbestos-free gaskets are used.
