DEVELOPMENT OBJECTIVES

Since its birth in 1969, the Coaster minibus has been steadily upgraded and adapted to meet various customer needs, operating as a city bus, school bus, hotel shuttle bus, and many other applications.
The present full model change, the second one since '82, features enhanced basic performance, and aims to provide the minibus market with luxury models.

The major development objectives of the new Coaster are as follows:

▶ **Creating a truly modern minibus style**

- Progressive design, worthy of a new era.
- Fulfilling a major upgrade.

▶ **Comfortable interior space one class above the previous model**

- Improved space utility.
- Reduced noise, vibration and harshness (N.V.H.).

▶ **Enhanced basic performance**

- Excellent driving stability and ride comfort.
- Improved corrosion-resistance and body rigidity.

▶ **Safety and environment**

- Wider field of vision, improved visibility.
- Recyclable plastic and rubber components for a cleaner environment.
