ENGINE

ENGINE LINE-UP

The new Coaster engine line-up is shown in the table below:

Type	Displacement	Max. Output (kW @ rpm)	Max. Torque (N·m @ rpm)	Features
3B	3.4 ℓ	71 @ 3500 [EEC]	222 @ 2000 [EEC]	The 3B engine is an in-line 4, 3.4-liter diesel engine, whose swirl-chamber type cylinder head is equipped with an OHV valve mechanism.
14B	3.7 ℓ	72 @ 3400 [SAE-NET]	240 @ 1800 [SAE-NET]	The 14B engine is an in-line 4, 3.7-liter diesel engine, whose direct injection type cylinder head is equipped with an OHV valve mechanism.
1HZ	4.2 ℓ	96 @ 4000 [SAE-NET, ECE]	280 @ 2000 [SAE-NET, ECE]	The 1HZ engine is an in-line 6, 4.2-liter diesel engine, whose swirl-chamber type cylinder head is equipped with an OHC valve mechanism.

■ GENERAL

Although the performance of the 3B, 14B, and 1HZ engines remains the same, their engine mounts have been modified, and resonators have been added to the air cleaner, to reduce noise and vibration.
