■ INTERIOR

1. Instrument Panel

The design of the instrument panel has been changed on the RHD models, excluding the Europe models. The changed items are as follows:

- The design of the meter cluster and meter hood has been changed.
- Along with the changes in the meter cluster, the shape of the register on the driver's side has been changed.
- As an audio space is located in the meter cluster, the position of the center register has been changed. In addition, the positions of the switches and the cup holder in the center of the instrument panel have been changed.

2. Inside Trim

- On the EX grade of the Hong Kong models, the color and the pattern of the fabric upholstery of the inside trim have been changed to improve the appearance.
