NEW FEATURES

INTERIOR

■ INSIDE TRIM

- A glide door trim assembly has been provided for the models equipped with an auto glide type center door for G.C.C. countries.
- A back door trim panel assembly has been provided for some models for G.C.C. countries.
- For fabric specification models equipped with a side trim assembly, a new pattern has been adopted on the surface of the side trim assembly.

■ CARTAIN

The front side window cartain assembly and rear side window cartain assembly provided for the Hong Kong package models have been abolished. For some Hong Kong package models, only cartain rails are available continuously.
