■ CHARGING SYSTEM

General

A segment conductor type generator assembly with the rated voltage of 12 V has been adopted.

▶ Specifications ◀

Rated Voltage	12 V
Rated Output	130 A
Initial Output Starting Speed	1300 rpm max.

■ STARTING SYSTEM

General

A starter motor with the rated voltage of 12 V and the rated output of 2.7 kW has been adopted.

▶ Specifications ◀

Rated Output	2.7 kW
Rated Voltage	12 V
Length*1	240.1 mm (9.5 in.)
Weight	7450 g (16.4 lb)
Rotational Direction*2	Clockwise

*1: Distance from the mounted area to the rear end of the starter
*2: Viewed from pinion side
