■ PASSENGER SEAT BELT

1. Front Passenger Seat Belt

- The 2-point type NR*1 seat belt adopted on the front passenger seat for some models for G.C.C. countries and general countries has been abolished. Instead, a body-mounted, 3-point type ELR*2 seat belt has been adopted. Therefore, for all the models, a body-mounted, 3-point type ELR*2 seat belt has been adopted.
- A seat-mount, 3-point type ELR*2 seat belt has been adopted for the front passenger seats of the models for Taiwan.

*1: Non Retractor
*2: Emergency Locking Retractor
