INTERIOR

■ GENERAL

A driver area to safely convey passengers and a comfortable passenger cabin area have been created based on the design concept of "Function and Hospitality" for a welcoming, bright, and high-quality interior space.

1. Driver Area

The optimal functional layout for professional drivers makes the driver area a functionally specialized cockpit. Furthermore, the simple yet modern shape and excellent view from the interior create a spacious area.

2. Passenger Cabin Area

The passenger cabin area provides a sense of freedom and a simple yet modern, high-quality space as soon as the passengers board. Once seated, the pleasant passengers space provides a sense of satisfaction.
