STARTING

■ GENERAL

A starter assembly with the rated voltage of 12 V and the rated output of 2.7 kW has been adopted.

▸ Specifications ◂

Rated Output	2.7 kW
Rated Voltage	12 V
Length*[1]	240.1 mm (9.5 in.)
Weight	7450 g (16.4 lb)
Rotational Direction*[2]	Clockwise

*[1]: Distance from the mounted area to the rear end of the starter assembly
*[2]: Viewed from pinion side

CHARGING

■ GENERAL

A segment conductor type generator assembly with the rated voltage of 12 V has been adopted.

▸ Specifications ◂

Rated Voltage	12 V
Rated Output	130 A
Initial Output Starting Speed	1300 rpm max.
