AUDIO SYSTEM

■ GENERAL

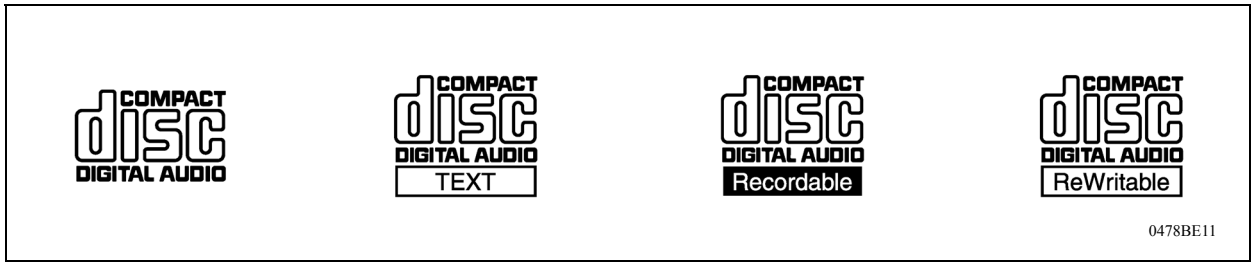

1. Audio System

- The following audio systems are available:

Audio System	Audio Head Unit	Speaker
Audio Less	-	4 Speakers
2 DIN Type Audio System	Radio Receiver Assembly	4 Speakers

2. Audio Head Unit

- Discs containing MPEG audio layer-3 (MP3) files and Windows Media Audio (WMA) files can be played.
- Discs with the marks shown below can be played.

- External input terminals (USB port and AUX port) are located on the front panel of the radio receiver assembly. (Audio systems with integrated external input terminals)
- A 3-line VFD (Vacuum Fluorescent Display) has been adopted to the audio display to improve operability such as track selection.
