■REAR LIGHTS

A rear combination light was adopted that incorporates the stop and tail light, rear turn signal light, and

- backup light. The light was designed for simplicity and high visibility.
- The license plate light illuminates the license plate from below for improved visibility.

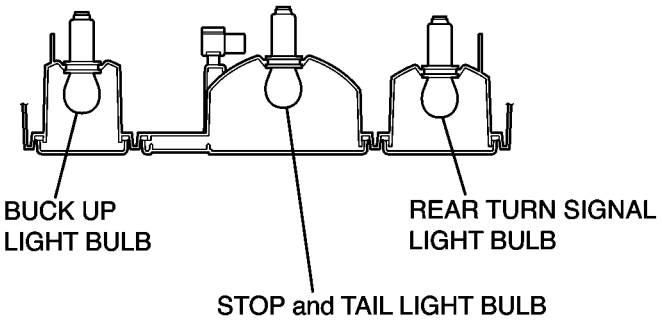

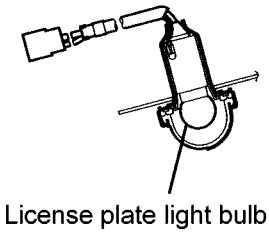

Cargo truck

1.Stop and tail light
2.Rear turn signal light
3.Backup light

TYPE-2
(CAB & CHSSIS)

4.License plate light
