5. Lighting

A map lamp assembly that the driver and front passenger can use independently has been provided on models other than those for China to improve convenience.

6. Combination Meter

- The design of the indicator lights in the combination meter provided on models other than those for China has been changed as shown in the table below.
- The slip indicator light uses the same active circuits as the SRS warning light, ABS warning light and brake system warning light on the previous FJ CRUISER.

Model	New FJ CRUISER	Previous FJ CRUISER
RSCA OFF Indicator Light	RSCA OFF 10YBE02TE	Not available
TRC OFF Indicator Light	TRC OFF 07DBE201TE	Not available
VSC OFF Indicator Light	OFF 10FCH15TE	VSC OFF 10YBE04TE
VSC TRC Warning Light	No longer used	VSC TRC 07DBE202TE

7. SRS Airbag System

The RSCA (Roll Sensing Curtain Shield Airbags) function has been provided as an option on models other than those for China. For details, see page 9.

8. Rear View Mirror

The inside rear view mirror, which consists of an automatic glare-resistant ECM (Electrochromic) mirror and rear view monitor system display unit, has been made available as an option on models other than those for China. For details about the automatic glare-resistant ECM mirror, refer to page 12.
