P. C. D.* mm (in.)		139.7 (5.5)	←
Inset mm (in.)		15 (0.6)	←
Design		 07DIN401S	 07D0MO07C

*: Pitch Circle Diameter

4. Suspension and Axle

The damping force characteristics of the front and rear shock absorber assembly have been optimized.

5. Brake

A VSC OFF switch is available as standard on all models.

6. Body

A bush protector is used for the No. 1 engine under cover on models for Australia, and an air guide fin is used for the No. 3 engine under cover on models with RA61F manual transmission for the Middle East. For details, see page 10.

7. Seat

- On all RHD models, a seat back pocket has been added for the driver seat, and an armrest has been added for the front passenger seat. For details, see page 12.
- An assist grip is used for the seat back of the driver and front passenger seats. For details, see page 12.
- The forward tilt angle of the front passenger seat has been increased. For details, see page 12.
- The decorative stitch line on the headrests has been discontinued and the headrest cover has been changed. For details, see page 13.

8. Seat Belt

- An Automatic Locking Retractor (ALR) has been added for all rear passenger seats on models for China, Australia and the Middle East.
- The tension reducer for the driver seat belt has been discontinued.

9. Multiplex Communication

- Controller Area Network (CAN) is newly available on the combination meter assembly. For details, see page 14.
- Audio Visual Communication – Local Area Network (AVC-LAN) is used for the audio system communication. For details, see page 17.

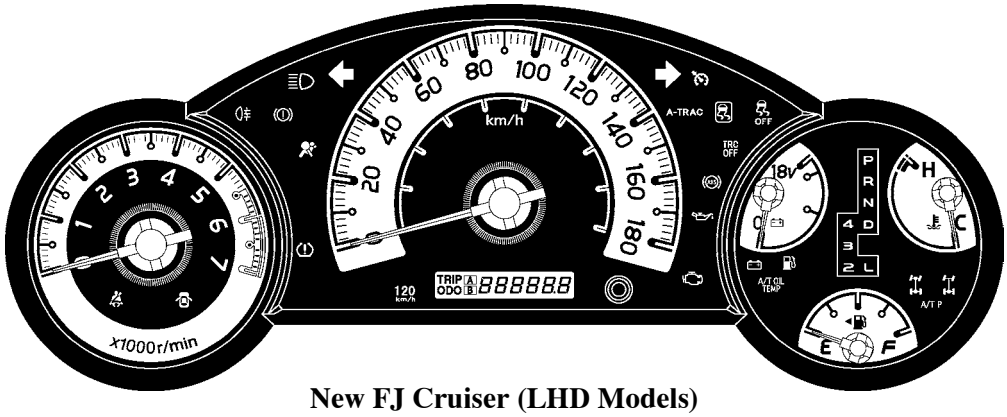

10. Bluetooth® Hands Free System

A Bluetooth® hands-free system has been made available on models with the audio head unit. For details, see page 18.

11. Meter

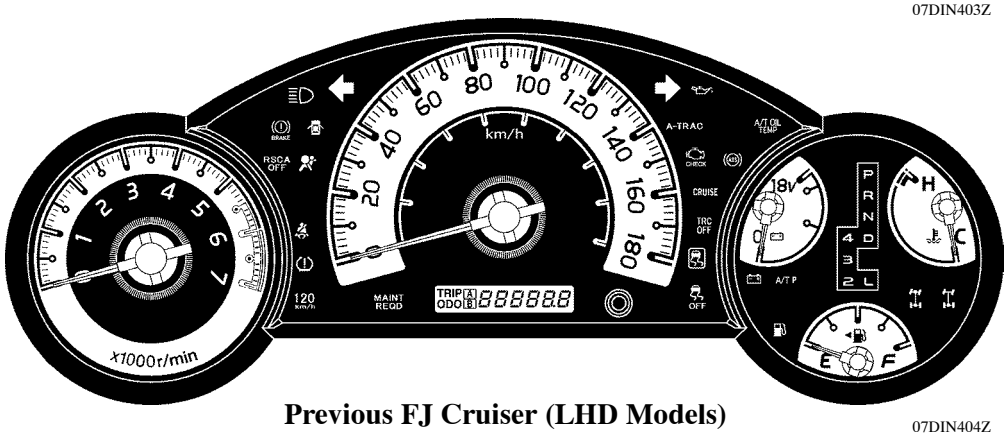

- The location of all indicator lights has been changed.

12. SRS Airbag System

- The Roll Sensing Curtain Shield Airbag (RSCA) function has been discontinued on all models for the Middle East.
- A SRS side airbag is used as standard on models for China.

13. Wireless Door Lock Remote Control System

A panic alarm function is used on models for Australia. For details, see page 22.

14. Audio System

- The audio system specifications have been changed. For details, see page 24.
- Instead of the previous AUX input jack, an USB/AUC jack is newly used. For details, see page 26.
- Bluetooth® audio has been introduced. For details, see page 27.

15. Battery

The battery type has been changed from 105D31L to 80D26L on all other models except on those with RA61F manual transmission for the Middle East.
