NEW FEATURES

BODY STRUCTURE

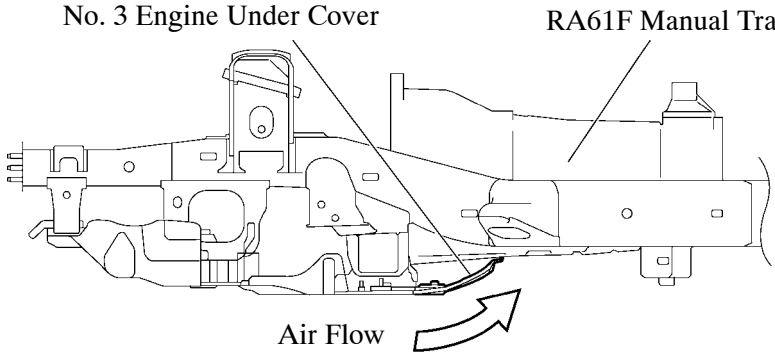

■ ENGINE UNDER COVER

- A bush protector is used for the No. 1 engine under cover on models for Australia.

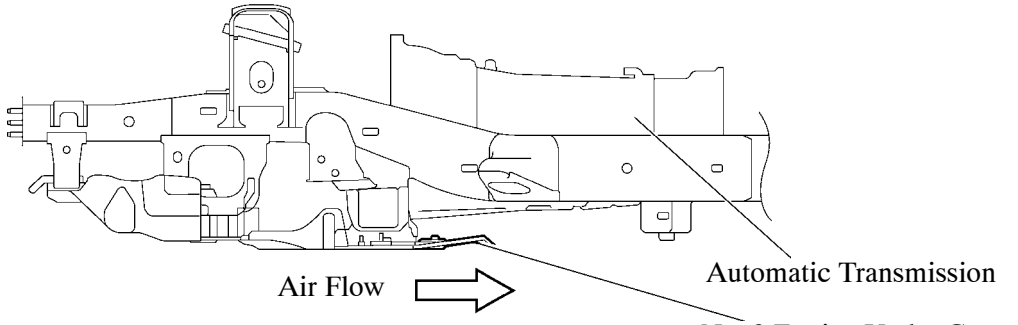

Models for Australia

- On models with RA61F manual transmission for the Middle East, the shape of the No. 3 engine under cover has been optimized to improve the cooling performance.

Models with RA61F Manual Transmission for the Middle East

Models with the No. 3 engine under cover except for those with the RA61F manual transmission for the Middle East.
