Power Outlet Socket

In order to meet multi-purpose outdoor needs, an AC 115 V 400 W power outlet socket is available in the right-hand deck.

- In order to protect the vehicle, the output of the power outlet socket is limited to 100 W while the vehicle is running.

Seat

A water repellant and waterproof fabric is used for the seat surface to allow easy wipe-down of dirt and water. The fabric uses a urethane film to prevent dampness.
The urethane film allows the seat to “breath”, while also preventing water from soaking in.
