■ HANDS-FREE FUNCTIONS

The Bluetooth hands-free system has the following functions:

Function			Outline
Call with Bluetooth Phone	Call with Bluetooth Phone By Dial		The user can call by inputting a telephone number.
	By Phonebook		The user can call by using the phonebook data that has been transferred from the user's Bluetooth phone.
	By Call History	Dialed Number	The user can call by selecting a previously dialed number. The system remembers up to 5 dialed numbers. If more than 5 numbers have been dialed, the oldest number will no longer be remembered.
		Received Call	The user can call by selecting the telephone number of a received call. When a call is received, the system will remember the last 5 numbers. If more than 5 calls have been received, the oldest number will no longer be remembered.
	By Speed Dial		The user can call by using registered telephone numbers selected from the phonebook, dialed numbers and received calls.
	By Voice Recognition	Dialing by Name	The user can call by giving a voice tag and dialing a registered phone number.
Receive with Bluetooth Phone			When a call is received, the receive screen is displayed with a ring tone.
Talk on Bluetooth Phone			While the user is talking on the phone, the talking screen is displayed.
Change Setting of Bluetooth Phone	Registering Speed Dial		The user can register the desired telephone number from the phonebook, dialed numbers or received calls.
	Deleting Speed Dial		The user can delete the speed dials individually or all at once.
	Setting Volume		The user can set the volume.
			Automatic volume setting for high speed: When the speed is 80 km/h (50 mph) or more, the volume automatically increases.
			Initializing the settings: The user can initialize the settings.
	Setting Phonebook		Transferring a telephone number: The user can transfer the telephone numbers from the registered Bluetooth phone to the system.
			Registering the phonebook data: The user can register the phonebook data.
			Editing the name: When the user does not input a name, the number is displayed.
			Setting a voice tag: The user can set a voice tag.
			Deleting the phonebook data: The user can delete the data individually.
			Deleting the call history: The user can delete the log data individually.

(Discontinued)

Function		Outline
